Breadsall Hill Top Primary
Early Years Foundation Stage

The guiding principles: What we want to see and hear in our effective early years' outdoor learning environment:

- A language rich environment, where language is used to support and further children's learning.
- Children engaged in purposeful play
- High quality and well-planned resources which support children's learning.
- An environment where children feel safe, are confident, happy individuals who are developing a sense of care and responsibility for themselves and others.
- Children becoming independent learners – doing things for themselves, delighting in their differences and individual achievements
- Daily/frequent opportunities for adventurous physical play in which children develop their confidence, skills and understanding of risk and safety
- Well-planned learning space, where children feel both stimulated and at ease.
- A place where children's imagination can flourish.
